Astute and adaptable Full Stack Developer with expertise in the MERN stack (MongoDB, Express.js, React.js, Node.js) and a strong foundation in HTML, CSS, and RESTful API design. Capable of leveraging Generative AI and rapidly learning new technologies. Committed to delivering high-quality, scalable web applications.

WORK EXPERIENCE

Policy X

Deputy Sales Associate

August 2022 - November 2022

Job responsibilities:

- Enhanced CRM system efficiency by maintaining accurate data for tracking performance and opportunities.
- Supported in creating promotional materials that improved client engagement, aligned with project goals.
- Managed customer inquiries and fostered strong client relationships to ensure client satisfaction.
- Collaborated with the sales team to generate leads and close sales, contributing to achieving sales targets.

PROJECTS

1. Cloning the Marvel Website | 🌐 | 🎨

HTML5 | CSS3

- Developed responsive layouts using HTML5 and CSS3 to closely replicate the Marvel website's design.
- Collaborated with a team to integrate various posters and project logos into the site's interface.
- Implemented the I-frame section and its descriptions, ensuring accurate representation of the original site.
- Participated in team discussions to align on project requirements and design consistency.
- Contributed to making the frontend elements visually appealing and functional.

2. Time-Trial | 🌐 | 🎯

JavaScript | HTML5 | CSS3

- Developed front-end UI with interactive charts using JavaScript, HTML5, CSS3, and Bootstrap.
- Built a responsive layout ensuring seamless user experience across different screen sizes using CSS media queries and Flexbox/Grid.
- Designed and developed a functional login and sign-up system with input validation and authentication.
- Implemented animations to enhance user interaction for features like time tracking, project management, and time off requests.
